VERIZON WIRELESS MESSAGING SVC
PO Box 15110
Albany, NY 12212-5110

This contract covers only those items listed in the price schedule. It is the responsibility of the agency to ensure that other items purchased are invoiced separately. State agencies will place orders directly with the vendor (creating a PG in Finet) and make payments for the same on a PV referencing the original PG. Agencies will return to the vendor any invoice which reflects incorrect pricing.

AUTHORIZATION REQUIRED FOR ALL STATE AGENCIES: PURCHASE REQUIREMENTS BY STATE AGENCIES FOR APPLICATIONS USING A NON-ENCRYPTED DEVICE THAT WILL HAVE NETWORK INTERFACE, CONNECTIVITY, OR ACCESS TO THE INTERNET, MUST FIRST BE AUTHORIZED BY THE DIVISION OF INFORMATION TECHNOLOGY SERVICES (ITS), RICK GEE, (801) 538-9567, rgee@das.state.ut.us

Products

Verizon Wireless Messaging Services offers a variety of quality Motorola products to meet all of your paging needs. Pagers range from digital display pagers to Two-Way units capable of sending e-mail messages. Motorola, a company recognized in the industry for its high quality standards, has tested its equipment thoroughly assuring reliability and durability. Verizon Wireless Messaging Services prides itself on offering dependable products as well as extensive coverage.

◆ **BR850**

This numeric pager, using FLEX technology, offers many enhanced features including: 60 message slots, the ability to save messages when changing the battery, 3 built in alarm clocks, time and date on standby, selective erase, and 6 musical alerts. In addition the BR850 has silent vibration, message timestamping, the ability to lock messages, saves messages when off, private time, volume control and an easy-to-read backlit display.

w Advisor Elite

This FLEX word message pager has a 4-line display and the ability to store up to 30,000 total characters. Features include: notebook slots to store important messages, a built in alarm clock, message time and date stamping, Optimax EL Electra light display for exceptional readability and clarity, silent vibration as well as eight musical alerts, battery gauge, and a zoom feature that enlarges text from four lines to two for easy readability.

]T900

This two-way pager is small and compact. Ability to write and send messages directly from the T900. Features include: Full keyboard, Easy to read 4X 20 line, backlit display screen, Easy to use address book, Stores up to 250 names with 8 entries per contact (For one person in your address book, you can have a wireless address, pager number, e-mail address, home phone, work, phone, mobile phone, fax number and notes).

] P935

This two-way pager is a customizable, personal messaging device that enables you to communicate wirelessly when you are on the move. It is small enough to be worn on your belt, yet it houses a 47-key QWERTY keyboard and residential address book that make it easy to send messages. Powerful features such as multiple inboxes with message filtering and customized alerts help you manage incoming messages non-intrusively. The P935 can also be enhanced via software and application upgrades through an infrared connection to grow with your changing wireless communication needs.

Alphanumeric Paging Options

Paging is becoming the best way to send a direct message to your employees. There is no need to check a voicemail message or return a call from a numeric page. The text message is sent directly to the pager and the employee knows immediately what the message is.

Messages can be sent through a computer with a modem, either through the internet or paging software. Verizon Wireless Messaging Services also rents alphanumeric sending devices that have a keyboard and modem built in. Verizon Wireless Messaging Services offers an operator dispatch service where your customers would speak to a live operator who types the message and sends it out for you. Alphanumeric is the fastest, easiest and most direct way to send a message saving you time and money.

wService

Alphanumeric service is available for local, regional, nationwide, 1.5 way and 2 Way paging. Custom Coverage is a cost saving option for nationwide alphanumeric service.

wInternet Paging

It is now possible to send a page through the internet. It may be done through your e-mail service to a personalized email address at yourname@myairmail.com or done directly through the Verizon Wireless Messaging Services web site, both are no cost to you.

wOperator Dispatch Service

Various price packages are available to enable your customers to speak with a live operator to get messages sent directly to you and your employees.

wQuickPager Sending Device

For a small rental fee this sending device can be available at a central location in your office making it easier for you and your employees to keep in touch with one another. This device allows you to send individual pages or set up groups to be paged and works directly through the phone line.

wPageSaver Plus Alphanumeric Re-send

In addition to retrieving numeric pages, PageSaver Plus Allows you to re-send an alphanumeric message to your pager from any touch tone telephone. This assures you won't miss any messages once you return to coverage area.

Enhanced Services

Verizon Wireless Messaging Services offers a number of enhanced services designed to save you time and money by improving the communication process.

wVoicemail

Gives you the opportunity to greet your customers with your own voice and give them the option to leave you a voice message or a numeric page. Different packages are available to suit your needs.

wCustom Greeting

Greet your customers with your own voice to personalize your paging service.

wPager Replacement Program

This insurance program is designed to protect you from loss, theft or total damage to your pager. For a small fee and a minimal deductible you will be free from the full replacement cost of the pager saving you money.

wPageSaver Numeric Retrieval

For a minimal cost PageSaver makes sure you don't miss a page even if you leave your pager at home, leave the coverage area, or if the battery runs low. From any touch tone phone you have the ability to call into your pager and retrieve the last 15 numbers dialed to your pager, you can even get the time and date the page was sent.

wPageSaver Plus Alphanumeric Re-send

In addition to retrieving numeric paging, PageSaver Plus allows you to re-send an alphanumeric message to your pager from any touch tone telephone. This assures you won't miss any messages once you return to the coverage area.

wNationwide 800 Numbers

You will be free from long distance charges when dialing a pager number with an 800 or 888 number. And it is a personal number, there is no need to have to remember a PIN number as well as a pager phone number.

wDataCast News Update Service

Get national news, weather, sports and stock updates right on your pager to keep you informed, even when you are on the go.

wStock Quote Manager

Customize stock updates sent to your pager to keep you informed on the stocks that you need to keep track of.
